Hedging & Risk Management

KB Oil undertakes hedging, where required, to manage exposure to fluctuations in commodity prices and protect the underlying value of its physical trades. This enables the company to mitigate market volatility and maintain greater certainty over its trading margins and financial obligations.

Hedging Relationships & registrations

For its hedging activities, KB Oil has established relationships and registrations with leading international financial and commodity trading institutions, including ICE International, R.J. O'Brien, StoneX, and Straits Financial.

Operations and Shipping

KB OIL coordinates each shipment within the agreed transaction scope through structured commercial, logistics, documentation and delivery support.
